

EU Shipping Temporarily Suspended

From **August 12, 2026**, the new EU Packaging and Packaging Waste Regulation (EU) 2025/40 will introduce additional requirements for shipping goods and packaging to other EU countries.

The associated **registration, reporting and packaging waste obligations** result in significant additional costs and administrative work for us as a small business.

For economic reasons, we will therefore **temporarily suspend shipping to other EU member states**.

Shipping within Germany will, of course, continue as usual.

We sincerely regret this decision and hope to be able to offer shipping to EU countries again in the future.

Thank you for your understanding!

Legal basis: Regulation (EU) 2025/40 on packaging and packaging waste (PPWR).
